Washingtonians Save Money or Travel by Going to Alexandria.

VIRGINIANS MAY DO SAME

By Buying Tickets to Alexandria They May Make Some Saving.

Times-Dispatch Bureau, Munsey Bullding, Washington, D. C., Oct. 3

At least two Washington men have succeeded in getting cleap tickets to Virginia points from this city through the putting into effect of the 2-cent rate on Virginia railroads. The manner of procedure was simple. It should be stated in the beginning that the 2-cent rate does not apply to points outside the State. The old rate applies if a citizen of this city wishes to travel by rail to a point in Virginia. The same is true if a citizen of Richmond wants to come to Washington. But love of the coin will find a way.

A Washington man, who was going to Petersburg yesterday, and wanted to take, advantage of the cheaper rate, worked a pretty scheme. He had only a suitcase in the way of baggage, so procedure was simple and easy. He bought a ticket to Alexandria over the electric line, for which he paid 15 cents. He took the car for Alexandria at 3 o'clock. The run consumed thirty-minutes. When he reached Alexandria he skipped over to the Richmond. Fredericksburg and Potomac station, bought his ticket for Petersburg at the rate of 2 cents a mile, and had but a few minutes' wait for the southbound Coast Line train, which passed about 4 o'clock. He saved upwards of a doi-

Made Close Connection.

Another man who wanted to go to Richmond bought a railway ticket for Alexandria, and had his trunk checked to that point. He was on the alert, and when the train pulled into the Alexandria station h, was on the step. He rushed to the ticket of Richmond, loped up to the baggage car, from which the smasher had just dashed his trunk, and after a moment's dickering with the agent, who was at the baggage heap, he got the trunk rechecked in Richmond, and saw it hoisted back into the car from which it had been thrown a minute before. He then rushed back to the first passenger coach, and when he got into his seat the train was just starting.

It required quick work, but it was demonstrated to be possible. The first man took the safer method, since it is not always possible to make such close connections.

NEW YORK, October 3.—Some of the bills incurred in the Thaw case of the county have been presented to Controller Metz, and have been held up as a result of a report made by the bureau of law and adjustment of the bills in dispute foots up to \$23,082. There has been paid out already \$3,082. There has been paid out already \$3,082. The bills of the doctors, which the controller has, are as follows: Dr. Carlos F. Travel without Pullman accommodations is a burden which most people desire to side-step, especially if they are able to pay the rates. Since the Hepburn law went into effect efforts have been made to induce the Interstate Commerce Commission to reduce charges in a number of instances. In Texas, however, the Pullman Company may withdraw from the State as a result of the ouster suit filed by the Attorney-General. Being accustomed to rough life, the Texans may be able to stand it, although it will be rather hard upon others running through.

Does a certain qualification entitle a man to call himself a physician? To meet the position it has been suggested that professional recognition shall be extended to the proposal to apply the term "doctor" to every qualified medical practitioner. This, of course, excites opposition in certain quarters, and as an alternative it is now proposed that all medical practitioners shall be content with the term "Mr." Personally, we think there is much to be said for this view. It has its parablel in the practice of the legal practitioner to escape in his periods of relaxation from the atmosphere of his technical work. Why should the medical man not be allowed to take his holiday or to attend a dinner party free from the announcement of his daily professional activities?
